European Union Aviation Safety Agency

FAQ n.104983

FAQs:

Part 21, Supplemental Type Certificates

Question:

How will the Agency notify the acceptance of the certification basis?

Answer:

It could be made in different ways depending on the size of the project, the forms used by the applicant and other circumstances. In general, any traceable way is acceptable (e.g. emails, formal letters, specific CAI etc). In the future SEPIAC will have a feature to trace this acceptance.
