European Union Aviation Safety Agency

# FAQ n.140183

## FAQs:

Intervention responsibilities in difficult environment, Rescue and Firefighting, Aerodromes (ADR), Regulations

## Question:

**How could the presence of difficult environments and the response capabilities to difficult environments be verified?**

## Answer:

The presence of difficult environments should be reassessed upon infrastructural changes at or near the aerodrome. The intervention capabilities should be verified during training sessions, familiarisation with difficult environments, or exercises. Any third-party arrangements should be reviewed and updated periodically to ensure high-level of safety.
