European Union Aviation Safety Agency

FAQ n.19450

FAQs:

List of approvals/Grandfathered approvals, ETSO authorisations

Question:

How do I know whether my article has received EASA approval?

Answer:

The lists of ETSO and JTSO certified articles are available here. There you will also find a list of parachutes under the responsibility of EASA. However please note that this list is complete only with regard to the ETSO authorizations and might not contain all JTSO certified articles.
