# FAQ n.20079

## FAQs:

Part-NCC/NCO, Air Operations, Regulations

## Question:

**Why do European rules require a list of specific approvals?**

## Answer:

Appendix V of the Authority Requirements (Part-ARO) contains a list of specific approvals for non-commercial operations and specialised operations. This list replicates in a proportionate manner the OpSpecs template for CAT operations.

The reasons for this list are to standardise the documentation of specific approvals for non-commercial operators and to support ramp inspectors in their oversight activities.
