Question:

Can you provide me any guidance or template, how I should write a DOA handbook?

Answer:

EASA provides a DOA handbook template providing guidance for drafting a DOA handbook here. The template has to be adapted to your company's scope of work, organisation and the way of working.

Be aware that this DOH template is not a standard manual, does not introduce new or modified rules and does not constitute any legal obligations or right for the Agency or the organisations. It must not be regarded as formally adopted Acceptable Means of Compliance (AMC) or Guidance Material (GM).
