

EASA Certification Information

No.: 2019-34
Issued: 20.08.2019

Subject: Transfer of EASA grandfathered DGAC France Type Certificate (TC) No. 190 from DAHER (formerly SOCAT) to Cougar Aircraft Corporation, USA, and EASA validation of FAA issued Type Certificate A17SO

DGAC FR TC EASA grandfathered 28.09.2003	FAA TC	EASA (new) TC
DGAC TC No. 190 GA-7	A17SO GA-7	EASA.IM.A.381 GA-7
Issued on 14 August 1997	Issued on 23 May 2019	Issued on 15 August 2019

Certificate: EASA.IM.A.381
Issue Date: 15 August 2019
Issued by: European Union Aviation Safety Agency

New Holder of the Certificate:
 COUGAR AIRCRAFT CORPORATION, 28 Glendale Road, Boxford, MA 01921, USA

Model: GA7 "COUGAR"

Context:

On 16 August 2018 Daher Aerospace applied to EASA to have the DGAC Type Certificate No. 190 transferred from Daher Aerospace to Cougar Aircraft Corporation based in USA.

The transfer was performed in accordance with the Technical Implementation Procedures for Airworthiness and Environmental Certification (TIP) between Federal Aviation Administration of the United States of America (FAA) and European Aviation Safety Agency (EASA), revision 6, dated 22 September 2017, Section 5.2 Transfer of TCs and STC.

The transfer was completed on 23 May 2019.

The revised FAA TC/TCDS list model GA-7 as per the DGAC Type Certificate in order to recognise this model due to taking ownership as State of Design.

EASA new TC/TCDS is drafted to ensure any existing EASA Member State issued Certificate of Airworthiness remains valid post transfer.

EASA hereby informs you of the aforementioned transfer.
