

EASA Certification Information

No.: 2019-17

Issued: 05 June 2019

Subject: Request by LOM PRAHA for surrender of Type Certificate No. CZ 95-02 for the V-532 propeller

Type Certificates No.: CAA Czech Republic Type Certificate No. 95-02, dated 14th December 1995

Issued by: The LOM PRAHA V-532 propeller was initially approved by the Civil Aviation Authority of the Czech Republic on 14th December 1995. EASA Type Certification for the V-532 propeller is granted in accordance with Article 3 paragraph 1(a)(i) of Commission Regulation (EU) No. 748/2012¹ based on the aforementioned CAA CZ certification of this propeller.

Type Certificate Holder: LOM PRAHA
TISKARSKA 270/8
108 00 PRAHA 10
MALESICE
CZECK REPUBLIC

EASA DOA No.: EASA.21J.306

Background: LOM PRAHA, as current holder of the Type Certificate for the V-532 propeller type, submitted to EASA a request to surrender the aforementioned Type Certificate.

The V-532 propeller was initially approved by the Civil Aviation Authority of the Czech Republic (CAA CZ) under Type Certificate No. 95-02 and Type Certificate Data Sheet No. 95-02.

EASA Type Certification for the LOM PRAHA V-532 propeller is granted in accordance with Article 3 paragraph 1 (a) (i) of Commission Regulation (EU) No. 748/2012 based on the CAA CZ type certification of this propeller.

LOM PRAHA informed EASA that, apart from the prototype which is on stock, no propeller of this type has been produced or sold, hence their wish to surrender the type certificate for the V-532 propeller.

¹ [Commission Regulation \(EU\) No 748/2012 of 03/08/2012 laying down implementing rules for the airworthiness and environmental certification of aircraft and related products, parts and appliances, as well as for the certification of design and production organisations](#) (OJ L 224, 21.08.2012, p.1)

The V-532 propeller is listed on the DOA Terms of Approval of the company, as well as on the website of the Civil Aviation Authorities of the Czech Republic (<http://www.caa.cz/letadla/lom-praha-s-p>). However, this propeller does not appear in the EASA Product List for Propellers. It is assumed that this inaccuracy was an oversight and should have been noted years ago.

EASA hereby asks you to communicate the aforementioned request to any natural or legal person to whom this surrender could be of direct and individual concern as well as to other interested persons. When doing so, EASA also asks you to inform them about the possibility, **no later than 5th July 2019** of commenting on the above.

After satisfactory evaluation of the surrender request, taking into account the comments received, EASA may accept the request and take the decision to revoke the Type Certificate for the V-532 propeller in accordance with the applicable administrative procedures established by EASA².
