

<b>EASA</b>	<b>CERTIFICATION MEMORANDUM</b>
	<p><b>EASA CM No.: EASA CM – PIFS – 008 Issue: 01</b></p> <p><b>Issue Date: 28<sup>th</sup> of February 2013</b></p> <p><b>Issued by: Propulsion section</b></p> <p><b>Approved by: Head of Products Certification Department</b></p> <p><b>Regulatory Requirement(s): CS-E</b></p>

EASA Certification Memoranda clarify the European Aviation Safety Agency's general course of action on specific certification items. They are intended to provide guidance on a particular subject and, as non-binding material, may provide complementary information and guidance for compliance demonstration with current standards. Certification Memoranda are provided for information purposes only and must not be misconstrued as formally adopted Acceptable Means of Compliance (AMC) or as Guidance Material (GM). Certification Memoranda are not intended to introduce new certification requirements or to modify existing certification requirements and do not constitute any legal obligation.

EASA Certification Memoranda are living documents into which either additional criteria or additional issues can be incorporated as soon as a need is identified by EASA.

### **Subject**

**Regulatory Differences CS-E vs CFR 14 Part 33**  
**(for validation by EASA of FAA certified engine types)**

# 1. INTRODUCTION

## 1.1. PURPOSE AND SCOPE

The purpose of this Certification Memorandum is to clarify the Agency's policy on Regulatory Differences which are to be taken into account when validating US certified engine types by providing lists, for various amendment pairs, of Significant Standard Differences and non-Significant Standard Differences and generic Validation Items.

## 1.2. REFERENCES

It is intended that the following reference materials be used in conjunction with this Certification Memorandum:

Reference	Title	Code	Issue	Date
---	Certification Specifications for Engines	CS-E	---	---
---	Technical Implementing Procedures for Airworthiness and Environmental Certification Between FAA/USA and EASA/EU	---	Rev 1	Oct 19, 2011

## 1.3. ABBREVIATIONS

The following abbreviations are used in this Certification Memorandum:

Abbreviation	Meaning
CM	Certification Memorandum
EASA	European Aviation Safety Agency
FAA	Federal Aviation Administration
PCM	Project Certification Manager
SD	Standard Difference
SRD	Significant Regulatory Difference
SSD	Significant Standard Difference
TVP	Type Validation Principles
US	United States
VI	Validation Item

## 1.4. DEFINITIONS

The following definitions are used in this Certification Memorandum:

Definition	Meaning
---	---

## 2. BACKGROUND

The Agency and the FAA have under the frame of the USA/EU Bilateral Agreement and its Technical Implementation Procedures established the Type Validation & Post Type Validation Principles Agreement to guide the type certification of each others products. The Type Validation Principles require that the Validating Authority publishes and periodically updates its listings of Regulatory Differences (generic VIs and SDs) for current amendment pairs. The generic VIs and SDs are regulations, identified by each authority, that must be actively reviewed for all type validations of engine products. Some items may be retained, others may be delegated, depending on complexity and experience, and some may not be applicable. For the Agency, PCMs are responsible to make these determinations.

## 3. EASA CERTIFICATION POLICY

### 3.1. EASA POLICY

The lists generic VIs and SDs for various amendment pairs are attached in the Annex A for turbine engines and Annex B for piston engines. It should be understood that it is not necessary to cover all combinations of amendments in the pairs, those included are only those considered likely to occur in practice.

### 3.2. WHO THIS CERTIFICATION MEMORANDUM AFFECTS

Applicants for EASA engine Type Certificate who are primarily under FAA jurisdiction.

## 4. REMARKS

1. Suggestions for amendment(s) to this EASA Certification Memorandum should be referred to the Certification Policy and Planning Department, Certification Directorate, EASA. E-mail [CM@easa.europa.eu](mailto:CM@easa.europa.eu) or fax +49 (0)221 89990 4459.
2. For any question concerning the technical content of this EASA Certification Memorandum, please contact:
