3rd EASp Implementation and Review Summit

18 June 2013

Attendance

35 delegates (ministries + CAA)

- A few multi-modal organisations

29 States (6 non-EU)

European Commission

8 EASAC members

Check how implementation is going

Look at working examples

Exchange information and discuss key issues

Review the EASp

Agenda

1. Introduction (EC)
2. Update of EASP (EC)
3. EASp 2013-2016 (EASA)
4. Implementation of SSP in the States (Portugal, Iceland, Ireland, Switzerland and Croatia)
5. Discussion session (All)
6. Safety Performance Measurement (SMICG)
7. The EASA Academy (EASA)

10TH ANNIVERSARY

Where are the gaps with SSP/EASP implementation?

- Input provided via written cards
- An open discussion followed

Feedback Themes

Risk Assessment at NAA level	Performance measurement	EASP/p process	Total System Approach
NAA internal	Promotion/Guidance	Safety Assurance/Oversight	Competency
SMS Applicability	Safety Culture	Occurrence Reporting	Definitions/Terminology
	Operational Issues for the EASp	Systemic Issues for the EASp	

Conclusions

Summits are useful for States to explain the approach and allow for open exchange of views

Two summits per year are considered appropriate

- First to discuss issues/gather feedback
- Second to review the draft EASp

Transparency → Confidence-building exercise

Feedback is important to fine tune the EASP/p

Thank you for your attention
