--------------------------------	---

Ref.	Topics	Presenters
1	Welcome and objectives The summit will start by reminding the objectives and providing information on what has happened since the previous summit.	EASA
2	Update on the EASP In this area the European Commission will update the participants on the steps being taken to develop an updated version of the EASP document.	EC
3	Overview of the EASp 2013-2016 This area will highlight key aspects of the 3 rd edition of the EASp focusing <i>on actions owned by the States and the mechanisms to report on progress.</i>	EASA
4	EASp implementation in the States This area provides an opportunity for States to share new developments at national level. States are encouraged to present their developments in terms of EASp and SSP. Please let us know whether you would like to make a presentation.	States
5	Open debate This area is shaped as a brainstorming session in which we explore solutions to common EASp/SSP/SMS implementation difficulties. <u>Proposed topic:</u> <i>new competencies for safety management - What is needed and how to build them.</i>	All
6	Other topics of relevance In this is area we address other topics/issues of relevance not addressed before. This may include updates on the new Annex 19 or the activities of the Safety Management International Collaboration Group (SMICG). A dedicated discussion area has been created in SINAPSE to gather your input.	All
7	Wrap up and conclusions	All
