

# Working Arrangements and foreign countries

***Roger Simon***

***Certification Manager - Design Organisations***

# Regulatory framework (1)

---

## ✈ Scope of 1592/2002

- ✦ Worldwide application

- ✦ provisions for derogation in context of recognition agreement between EU and non EU countries (article 9)

- ✦ provisions for working arrangements (Article 18)

# Regulatory framework (2)

---

## ✈ Article 9

- ✦ If the co-operation aims at creating obligations on Member States or on the Community or at allowing deviations from Community law, it shall be established by means of a formal agreement concluded by the Community itself (Article 9.1 of the EASA Regulation)

# Regulatory framework (3)

---

## ✈ Article 18

- ✦ If the co-operation only commits the Agency for the execution of its certification tasks, it may be established by means of a working arrangement concluded by the Agency (Article 18.2 of the EASA Regulation)

# Recognition Agreement (1)

---

- ➔ **International treaty**
- ➔ **Approved at EU Community level :may introduce other means than those provided by 1592 and implementing rules**

# Recognition Agreement (2)

---

## → Current situation

- ✦ No new agreement under Article 9.1
- ✦ Use of existing agreement under article 9.2

# Recognition Agreement (3)

---

## ✈️ FAA Case

- ✦ Continuation of Existing BASA IPA signed prior to 28.09.2003
- ✦ Decision 2004/01/RM for changes and repairs
- ✦ Negotiations for a new EU-US agreement have started

# Working Arrangements (1)

---

## → Outsourcing policy

- ✦ The Agency Management Board has adopted an outsourcing policy which allows the Agency to allocate certification tasks to accredited national authorities including those of third countries
- ✦ The accreditation process has for objective to verify that the partner authority is able to implement Agency's certification requirements and procedures. The cooperation shall be subject to a working arrangement.

# Working Arrangements (2)

---

## → Working Arrangement

- ✦ Such arrangement could be generic and cover a range of certification tasks (e.g. Canada)
- ✦ They can be limited to individual projects (e.g. Brazil)
- ✦ The choice depends on the scope of past cooperation and established confidence
- ✦ Such arrangements allow demonstration of capability for design and production on the basis of foreign system, in accordance with 1702/2003, Article 3.2 and 4.2

# Working Arrangements (3)

---

## ✈ Signed Arrangements

- ✦ Agency / TCCA (February 2004)
- ✦ Agency / DCA-CTA (February 2004)

## ✈ Arrangements under discussion

- ✦ Agency / CAA Israel
- ✦ Agency / IAC (Russia)
- ✦ Agency / Australia
- ✦ Agency / New Zealand
