Global Recognition of AMO Certification & Surveillance Activities

Steve Douglas, FAA, Manager

Aircraft Maintenance Division

Global aviation safety for a global Industry

Areas for Improvement

➢ Standardize **audit techniques and systems** to review audits performed by regulators and customers.

INEFFICIENCY

$

➢ Reduce **redundancy** of audits/certification.

Duplication
Duplication
Duplication

Manpower and Resources

Establish common regulatory acceptance of Audits of between regulators

AS 9110 International Aviation Standard

or

Other Common Standard

RULES

REGULATIONS

North America

Europe

Asia-Pacific

Increase audit efficiency thru Harmonization

Certification Requirements

➢ **AMOs perform maintenance Internationally with a multiplicity of requirements**

❖ **Multiple procedures manuals**

❖ **Quality Assurance Systems**

❖ **Training Requirements**

➢ **Platform for standardization of AMO certification requirements**

Outcome

Streamlined certification process

standardized audits

Reduction in processes

Reduction in cost

Reduction in duplication

Enhance Safety
