Who we are

SEPLA Safety Reporting System

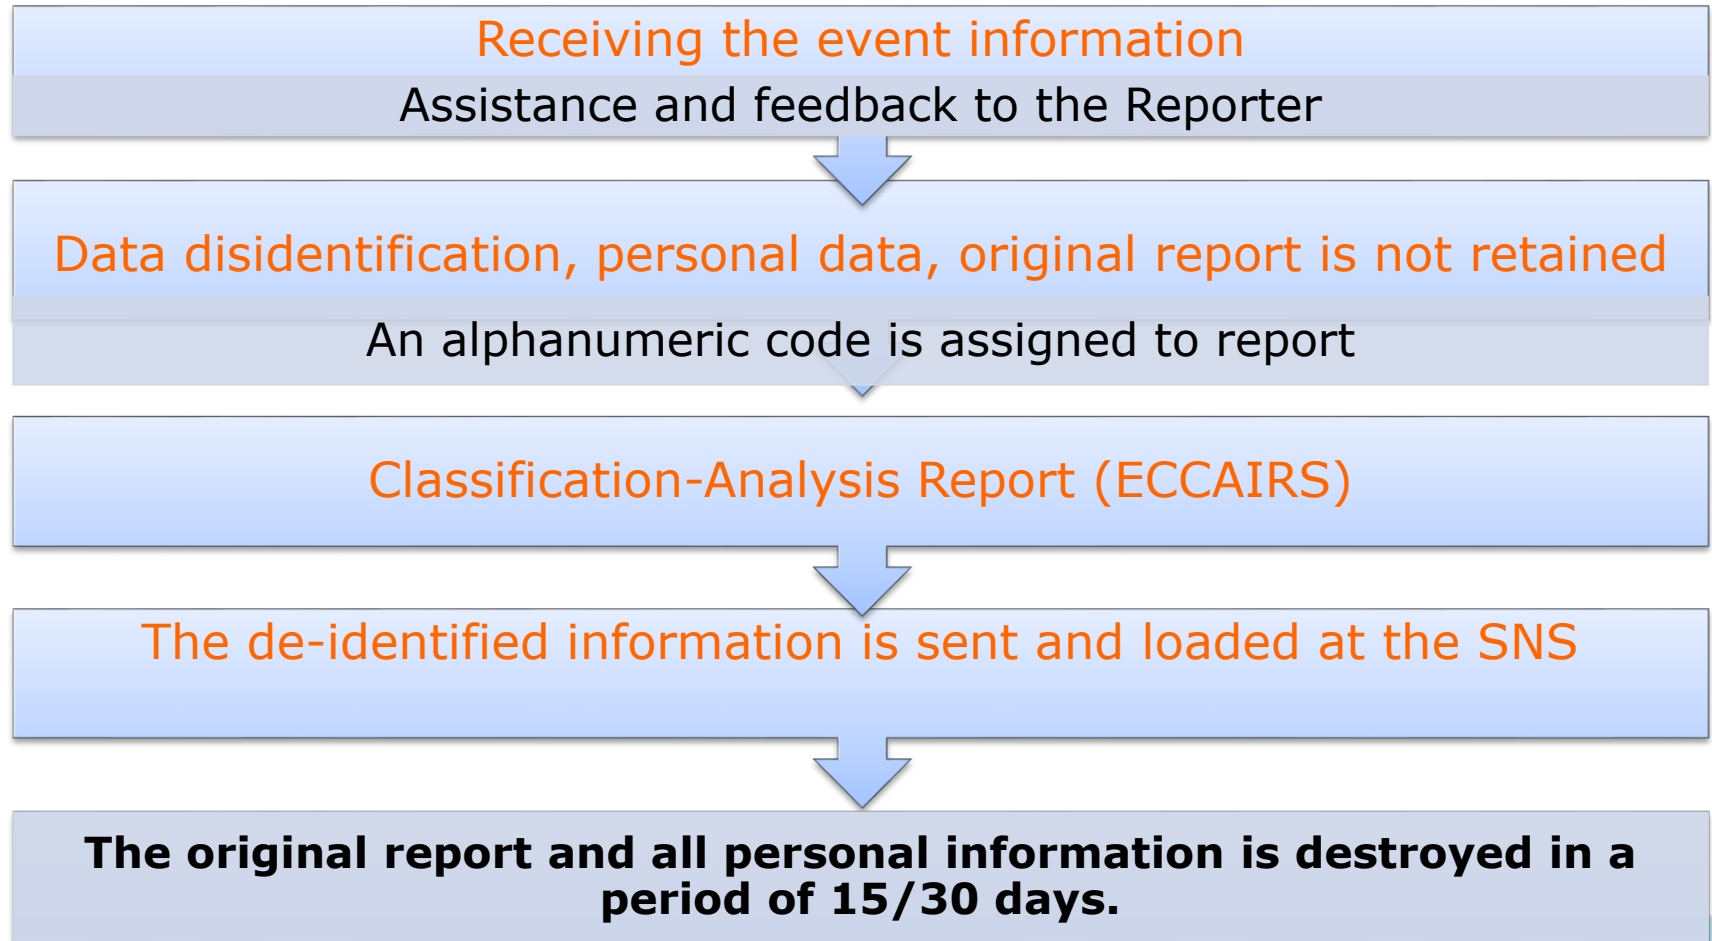

- **SRS: Independent, Confidential and no punitive** organization with interest in Aviation Safety Improvement.
- Purpose of capturing the occurrences safety events that other systems are not able to achieve and acquisition **high quality** relevant safety information, focusing on **human error** factors, improving not only numbers, most important, the quality data to the national repository.
- What .. Who... Why?...
- Identify gaps, assess risks and propose strategies to mitigate them

All in One...report channel
