

**AeroSpace and Defence**  
Industries Association of Europe

***EASA DOA Workshop***  
***Cologne***  
***18NOV15***

***Standardisation of  
Design Supplier Surveillance***  
*A European Industry initiative  
supported by other parties*

***NON-EU DOA***  
***Sub-Group Russia***  
***Rezeda Shamsutdinova***

### Company Represented

Russian Helicopters and its subsidiaries

United Aircraft Corporation and its subsidiaries

Several MRO's

TSAGI

ECAR

### Main goals of NON-EU DOA WG participants

To use DOA TT guidelines,

To actively participate in DOA TT guidelines development,

To benchmark European approaches in SMS development,

To apply for DOA.

### DOA holders and interested parties of the subgroup.

2 DOA holders (Minor changes and repairs)

Several interested parties in:

- Concurrent Type certification with EASA,
- Minor changes and repairs for airlines.

### Challenges

Differences between European and Russian airworthiness and environmental certification systems, which entails economic burden on the aviation industry from the both sides, taking into account a trend toward multinational design and production.
