## SECTION 1: Aircraft Design Definition

The certification basis of this aircraft is:

- (1) Type Certificate Data Sheet: EASA A 385

For copies contact ENAC or Vulcanair (airworthiness@vulcanair.com)

- (2) National Austrian approval for hail prevention system:

Initial approval Nr OE-FGW/2-6 Dated 10. August 1983

This approval is grandfathered by EASA under Regulation (EC) 1702/2003 Article 2 Paragraph 3(a).

## SECTION 2: Airworthiness Directives

All Airworthiness Directives applicable to Vulcanair (Partenavia) P68B apply to this aircraft.

## SECTION 3: Occurrence Reporting

The Specific Airworthiness Specification may be used as a basis for the issue of a Restricted Certificate of Airworthiness in accordance with 21A.173(b)(2) under the following conditions:

- a) The holder of a Restricted Certificate of Airworthiness based on this Specific Airworthiness Specification shall report to the State of Registry all information related to occurrences associated with the operation of the aircraft which affects or could affect the safety of operation<sup>1</sup>.
- b) Such reports shall be despatched within 72 hours of the time when the occurrence was identified unless exceptional circumstances prevent this.
- c) The State of Registry shall forward the information received under (a) to the Agency when it relates to failures, malfunctions, defects or other occurrences which cause or might cause adverse effects on the continuing airworthiness of the aircraft.

## SECTION 4: Other Limitations

- 1. With hail prevention equipment fitted, this aircraft is limited to aerial work operations.
- 2. The applicability of this SAS is limited to Vulcanair (Partenavia) P68B OE-FGW s/n 122.
- 3. Supplement to the RAI-approved Flight Manual Partenavia P68B Victor Hail defense flights. Revision 0, Doc. SDF-SFM-OEFGW, Issue 5.2.2016 applies.
