Description

The Maintenance Regulations Section of the Maintenance and Production Department is organising a workshop to present the latest changes proposed by an NPA to be published as part of the rulemaking task RMT.0521.

This NPA will propose amendments to Regulation (EU) 1321/2014 and Regulation (EU) No 748/2012 to address the objectives described in the Terms of Reference (see attachment), namely:

- provides more clear requirements/guidance for those aspects which were creating interpretation/standardisation problems;
- removes those requirements which do not bring safety benefits;
- facilitates the transfer of aircraft between Member States; and

- reinforces the oversight role of the competent authorities.
