### Description

The Regulation (EU) No 376/2014 on the reporting, analysis and follow-up of occurrences in civil aviation entered into force in November 2015. This Regulation has introduced changes in the way regulated Organisations and Authorities deal with occurrence data. In order to receive a feedback from the Industry on its implementation, the European Aviation Safety Agency is organising a thematic Workshop on this subject.

The main aim of this event is to open a forum on the novelties introduced by the Regulation (EU) No 376/2014, share the feedback on its implementation as well as facilitate an open discussion on the eventual challenges encountered during its deployment.
