Description

09:00 H – 17:00 H

Registration from 08:30 H

Related to the EASA General Aviation Road Map, the Agency is working on Rulemaking Task RMT.0698, entitled ‘Revision of the operational rules for sailplanes’. The major goal is to establish simpler, ‘lighter’ and better rules for air operations with sailplanes. The Agency plans to finalise this task until the second quarter 2017 (EASA Opinion).

The Agency is not planning, as usual, to publish a Notice of Proposed Amendment (NPA) for consulting interested parties. Instead, the Agency is organising a one-day workshop for focussed consultation to discuss the draft revised rules. The workshop is dedicated to sailplane operators, manufacturers and competent authorities.

During the workshop the envisaged new operational rules for sailplanes will be discussed in depth. Therefore, the workshop is not meant to address the wider public, but is dedicated to specialists who contribute actively to the specific air operational issues of discussion. The Agency plans to provide the participants with the draft rules prior to the workshop for giving them the opportunity to prepare for the event.

Registration

To participate in the workshop, please complete the registration form and send it back to [air_ops \[at\] easa.europa.eu](mailto:air_ops@easa.europa.eu). The registration will close on 25 November 2016. No administrative fee will be charged.

Accommodation and Travel arrangements

Participants need to take care of their accommodation and travel arrangements themselves.

For information on accommodation in Cologne, please visit the booking platform [ehotel](#) . Enter 'EASA' in the field 'Reiseziel' and select 'Europäische Agentur für Flugsicherheit (EASA), Köln, Deutschland' to obtain special rates.
