Description

The Regulation (EU) No 376/2014 on the reporting, analysis and follow-up of occurrences in civil aviation entered into force in November 2015. This Regulation has introduced changes in the way regulated Organisations and Authorities deal with occurrence data.

EASA hosted a workshop last year, on the 21st of June 2016, to receive feedback from the Industry on the implementation of Regulation (EU) No 376/2014. This year EASA is hosting a workshop in order to continue the sharing of the implementation

feedback as well as to facilitate an open discussion on the challenges still encountered since the deployment of the Regulation. The workshop will provide a platform for exchange of best practices, lessons learnt and relevant information in the field of occurrence reporting.

The Workshop is open to Organisations that report to EASA.
