Description

The 6th EASA International Cooperation Forum (ICF6) is an exclusive conference for aviation authorities and regional organisations alike who have adopted or who are interested in EASA rules and the regional approach. It provides an opportunity for these partners to speak directly with each other on upcoming developments and shared challenges.

ICF6 will cover a broad spectrum of topics on high-level issues such as regional and technical cooperation, enhancing the regulatory approach, addressing organisational challenges and also new subjects such as cybersecurity and drones. It will build upon the experience gained since the first such event in 2008 and the close cooperation developed between EASA and its partners worldwide.

Participation at ICF6 is limited to states and Regional Safety Oversight Organisations (RSOOs). If you are interested in participating, please send an e-mail to [eesa-forum \[at\] easa.europa.eu](mailto:eesa-forum@easa.europa.eu).
