

EASA-FAA International Aviation Safety Conference 2013

Date:**12 Jun 2013 to 14 Jun 2013**

Description

The EASA / FAA International Aviation Safety Conference has a long standing tradition: it has been organised and co-chaired by the two main technical aviation safety authorities of Europe and the US for the last three decades. Since 1983 the conference has been hosted in annually rotating order by the Federal Aviation Administration (FAA) and the Joint Aviation Authorities (JAA), taken over on the European side by the European Aviation Safety Agency (EASA) in 2005.

This year, it is again Europe's turn to organise the conference and the host country is France. The conference will be held in the beautiful city of Paris, from 12-14 June 2013 with the support of the French Directorate General for Civil Aviation.

All conference documentation, as well as information on registration and accommodation, will be published on this conference website in due course. You are invited to visit it regularly for updates
