EaP/CA project
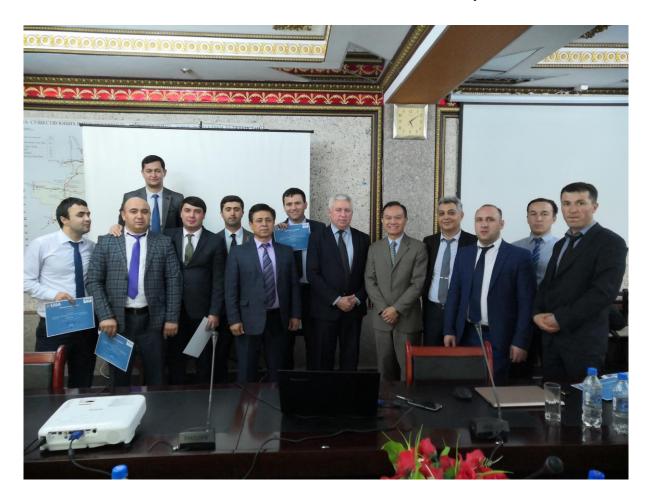

WP 4: Competency Development:

"ICAO CMA on-line framework Workshop"

The Onsite support as regards ICAO CMA Online Framework under the EASA-EaP/CA project took place in Dushanbe, Tajikistan from 1 to 5 April 2019.

The objective of the workshop was to provide onsite working session on ICAO CMA on-line framework (OLF). It was designed to provide the CAA assistance for improving EI of ICAO SARPs up to global target value, and to provide assistance for resolution of SSC.

The assignment was tackled by focussing on the attendees' need to address ICAO USOAP/ICVM audit preparation with the objectives for knowledge sharing and practical demonstration on the use of OLF. In addition and following the request of CAA personnel for support in formulation of CAPs, extra effort and times were allocated to review findings in the 2016 audit and discussion in detailed with CAA personnel on the contents of the 2016 audit report.

At the end of the 5 days training, all TCAA attendees that included officers from Airworthiness, Flight Standards, Supervision, Air Navigation Services, Personnel Licensing, International Relationship and Aerodromes offices attained a very good level of understanding on the CMA audit and ICVM preparation.

The activity was well attended by thirteen subject matter experts from the CAA of Tajikistan.
