

The EASA Type Rating & License Endorsement Lists constitute the class and type of aircraft categorisations in accordance with FCL.010 (category of aircraft, class of aeroplane, and type of aircraft), FCL.700 and GM1 FCL.700 of Annex I of Commission Regulation (EU) No 1178/2011 of 3 November 2011 ("Part-FCL"), as amended. The lists further provide aircraft specific references relevant to flight crew qualifications and air operations (further information concerning these lists is provided in the associated explanatory notes).

Manufacturer	Aircraft Model / Name	License Endorsement	Differences	Complex	SP / SP HPA / MP	OEB FC REPORT / OSD FC available	Remarks
All manufacturers	All powered sailplanes having an integrally mounted, non-retractable engine and a non-retractable propeller, capable of taking off and climbing under its own power.	TMG		—	SP		Class Rating TMG Aircraft within the class rating TMG (Touring Motor Glider) are not listed individually in this table, unless Operational Suitability Data have been established.
All manufacturers	Single-engine piston (land)	SEP (land)	(D)	—	SP		Class Rating SEP (land) Aircraft within the class rating SEP (land) are not listed individually in this table, unless Operational Suitability Data have been established.
	Single-engine piston (land) with Variable pitch propellers (VP)						
	Single-engine piston (land) with Retractable undercarriage (RU)						
	Single-engine piston (land) with turbo / super charged engines (T)						
	Single-engine piston (land) with cabin pressurisation (P)						
	Single-engine piston (land) with Tail Wheels (TW)						
	Single-engine piston (land) with Electronic Flight Instrument System (EFIS)						
	Single-engine piston (land) with single lever power control (SLPC)						
All manufacturers	Single-engine turbo-prop engines	SET (land)	(D)	—	SP		Class Rating SET (land) Aircraft within the class rating SET (land) require an operational suitability data evaluation and are listed individually in this table. Unless determined by the OSD, differences training is required between all SET (land) aircraft.
All manufacturers	Single-engine piston (sea)	SEP (sea)	(D)	—	SP		EASA Class Rating SEP (sea) Aircraft within the class rating SEP (sea) are not listed individually in this table, unless Operational Suitability Data have been established.
	Single-engine piston (sea) with Variable pitch propellers (VP)						
	Single-engine piston (sea) with turbo / super charged engines (T)						
	Single-engine piston (sea) with cabin pressurisation (P)						
	Single-engine piston (sea) with Electronic Flight Instrument System (EFIS)						

Manufacturer	Aircraft Model / Name	License Endorsement	Differences	Complex	SP / SP HPA / MP	OEB FC REPORT / OSD FC available	Remarks
	Single-engine piston (sea) with Single Lever power control (SLPC)						
All manufacturers	Single-engine turbo-prop engines	SET (sea)	(D)	—	SP		Class Rating SET (sea) Aircraft within the class rating SET (sea) require an operational suitability data evaluation and are listed individually in this table. Unless determined by the OSD, differences training is required between all SET (land) aircraft.
All manufacturers	Multi-engine piston (land)	MEP (land)	(D)	—	SP		EASA Class Rating MEP (land) Aircraft within the class rating MEP (land) are not listed individually in this table, unless Operational Suitability Data have been established. Differences training required between all MEP (land) aircraft.
All manufacturers	Multi-engine piston (sea)	MEP (sea)	(D)	—	SP		EASA Class Rating MEP (sea) Aircraft within the class rating MEP (sea) are not listed individually in this table, unless Operational Suitability Data have been established. Differences training required between all MEP (sea) aircraft.
