Subject: POSTPONEMENT - Operational Suitability Certificate (OSC) Workshop
~~Tuesday 2 December 2008 (10.00–16.30)~~ – January-February 2009!

Dear Sir, Dear Madam,

We refer to the invitation letter we sent on 22 October 2008, regarding the above mentioned OSC Workshop.

The intent of the workshop was to present the Notice of Proposed Amendment (NPA) regarding the new rules for the OSC. After receiving letters from stakeholders on the subject, we have decided to postpone the publication of the NPA for making some final adjustments to the text. As a consequence, we also have to postpone the workshop scheduled for 2 December 2008. According to the latest planning the workshop is now scheduled for January-February 2009.

We apologise for the short notice notification, and for the eventual problems this may cause to your travel arrangements and/or hotel bookings.

We will contact you as soon as the issues have been resolved and inform you of the new workshop date. Priority will be given to the participants who already registered to this workshop and received our confirmation.

For additional information, please contact Maria Algar Ruiz or Peter Corbeel by e-mail at maria.algar-ruiz@easa.europa.eu or peter.corbeel@easa.europa.eu.

We apologise again and hope to meet you at the OSC Workshop early next year.

Yours faithfully,

J. KNEEPKENS
