The objective of the workshop is to explain the changes to Part-M proposed by the Opinion 02/2008, which was published on 16 May 2008. These envisaged changes are focused on the General Aviation community, including industry, organisations, stakeholders, pilot-owners and flying associations, and are aimed to adapt the regulation to the specific needs of the aviation sector. These changes, consequently, also affect National Aviation Authorities.

The workshop is open to everybody: Pilot-owners, flying associations, maintenance organisations, continuing airworthiness management organisations, operators, maintenance training organisations, aircraft maintenance licence holders, National Aviation Authorities, etc.

The event will be published on the Event page of the EASA Website:
