

ECCAIRS

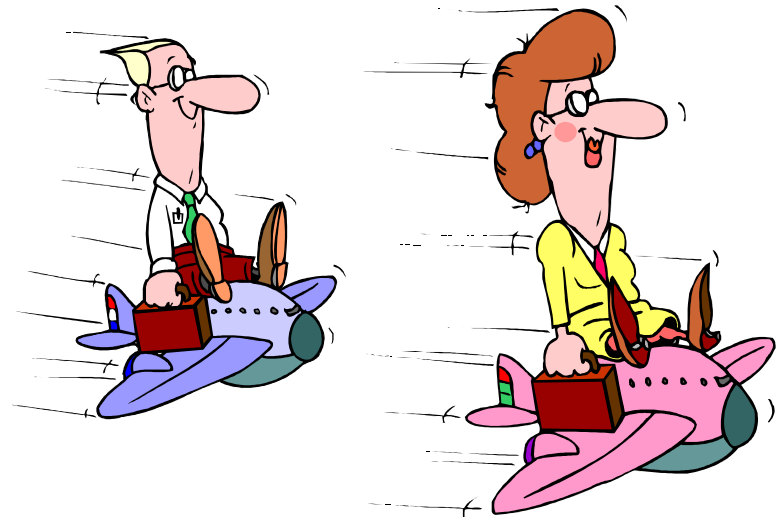

European Coordination Centre for Accident and incident Reporting Systems

European Commission
Joint Research Centre
Institute for the Protection and Security of the Citizen

July 2009

ECCAIRS objective (1993)

Improve air safety by bringing together the knowledge derived from the collection of incompatible occurrence reporting systems from various (member) States.

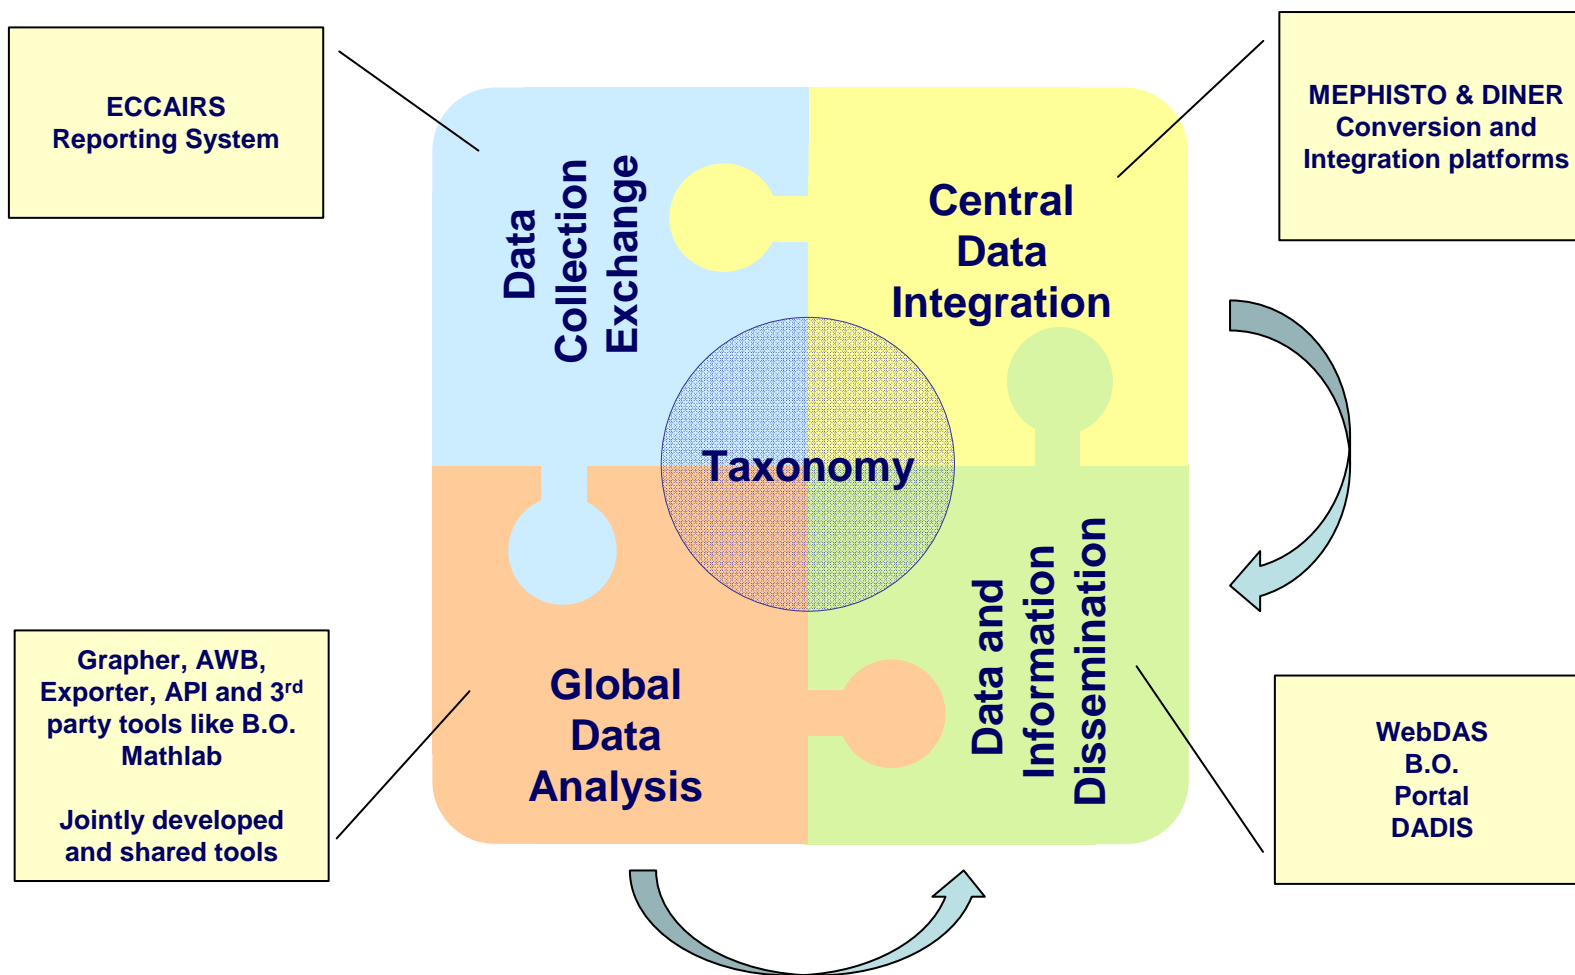

Approach

- **Provide means for co-operation**
 - ECCAIRS Steering Committee
 - ECCAIRS portal website
 - Involve international organisations
- **Provide a reporting system which**
 - allows for data exchange and integration
 - is scalable in IT terms
 - can be used in different domains
- **Provide training and support**
 - together with others (ICAO, Member States)
 - for EU Member States
 - for other states as long as resources are available

- **Start-up (1992 - 1995)**
 - Learning, Networking, Getting acceptance
- **Data Collection in the Member States (1996 - 2002)**
 - Reporting system, Basic analysis, Data conversion
- **Training (2003 - 2005)**
 - Setup and use of the tools, Harmonise reporting culture
- **Data Integration/Dissemination at EU level (2006-2007)**
 - Data integration tools and methods
 - Data dissemination tools and methods
 - Data integration and dissemination
- **Data Analysis and Re-application (2007 - 2013)**
 - Tools for improved Data Quality
 - Data Analysis tools and methods
 - Multimodal transport safety

The ECCAIRS concept

- **The ECCAIRS reporting system can be used by**
 - EU competent authorities (CAA and AIB)
 - international competent authorities (via ICAO)
 - operators, maintenance organisations, service providers, etc. via their responsible national competent authority
- **The ECCAIRS reporting system is**
 - a tool to collect and assess safety data
- **The ECCAIRS reporting system is not**
 - a means to access EU wide safety data
 - a complete implementation of a State Safety Program or Safety Management System
