

21 Design Organisation Approval (DOA) Implementation Workshop

Wrap-up and Closure remarks – Day 2

- Presentations will be available on EASA website;
- FAQ will be available on EASA website;
- Workshop is to be organised on a yearly basis;
- Discussions on test houses/ control of subcontractors – industry may take a look at ICOP and develop further similar scheme at EU/ worldwide level, as needed;
- Good elements/ non-controversial issues in NPA 16 may be introduced via GM – kind of update on existing GM; this is to be discussed internally by EASA;
- Consolidated versions on regulations – will be provided by EC;
- Consolidated versions on AMC & GM – EASA is working on the issue; as for DOA purposes – EASA is already providing the Part 21 DOA Compliance Checklist kept up to date;
- The workshop agenda (technical and design assurance system related topics) – illustrated EASA intention to cover both the needs of mature DOA's and also those of the new comers; in future, we may develop a forum organized with sessions for all participants and dedicated specialized workshops.
