**New Holder of the Certificate:** Viking Air Limited, 1959 de Havilland Way, Sidney, B.C., Canada

**Model(s):** SD3-30, SD3-60, SD3- SHERPA, SD3-60- SHERPA

### Context:

On March 20, 2019 Viking Air Limited applied to TCCA to have the Type Certificate A-117 transferred from Short Brothers PLC to Viking Air in accordance with CAR 521.357(1)(b).

On March 21, 2019 Short Brothers PLC applied to EASA for the transfer of UK CAA (EASA grandfathered) Type Certificate BA11 to Viking Air Limited.

The transfer was performed in accordance with the Technical Implementation Procedures for Airworthiness and Environmental Certification (TIP) under The Agreement on Civil Aviation Safety between the

Government of Canada and the European Union Revision 4, dated 10 December 2018, Section 4.2 Transfer of a TCs or STC.

The revised TCCA TC/TCDS lists all models as per the UK CAA Type Certificate in order to recognise all models, due to taking ownership as State of Design.

EASA new TC/TCDS is drafted to ensure any existing EASA Member State issued Certificate of Airworthiness remains valid post transfer.

EASA hereby informs you of the aforementioned transfer.
