

**FAQ n.19583****FAQs:**

[Technical Issues](#), [Third Country Operators \(TCO\)](#), [Regulations](#)

**Question:**

**Are there recognised industry standards or third-party audit programmes (e.g., ISO 9001, IOSA, IS-BAO, Air Charter Safety Foundation IAS, etc.) that, if accomplished, may ease the assessment process for operators requesting authorisation?**

**Answer:**

Conformity with industry standards (when fulfilling the requirements set out in TCO.200 and to the extent that they cover the scope defined in TCO.200(a)(1) and in the absence of safety concerns) may result in a certain bonus rating in the TCO risk-based approach. However, conformity with an industry standard does not substitute for the demonstration of compliance with specific international aviation safety (ICAO) standards by the operator, and does not replace a TCO assessment performed by EASA.
