

ADR surroundings, and the limitations of ADR jurisdiction

Peter Temesvary, BUD

ADR Regulation Workshop
2022 April 6

Regulatory background

- ADR.OPS.B.020 Wildlife strike hazard reduction

The aerodrome operator shall:

- (a) assess the wildlife hazard on, and in the surrounding, of the aerodrome;
- (b) ...
- (c) notify the appropriate authority if a wildlife assessment indicates conditions in the surroundings of the aerodrome are conducive to a wildlife hazard problem.

- GM2 ADR.OPS.B.020 Wildlife strike hazard reduction –
WILDLIFE RISK MANAGEMENT PROGRAMME:

The wildlife risk management programme may cover an area of approximately 13 km (7 NM) from the aerodrome reference point, and should include, at least, the following elements:

- [- a process to report, collect, and analyse data
- a process of habitat and land management both on, and in its surroundings
- a process for liaison with non-aerodrome agencies and local landowners (for example crop harvesting, seed planting, ploughing, establishment of land or water features, hunting, etc.)]

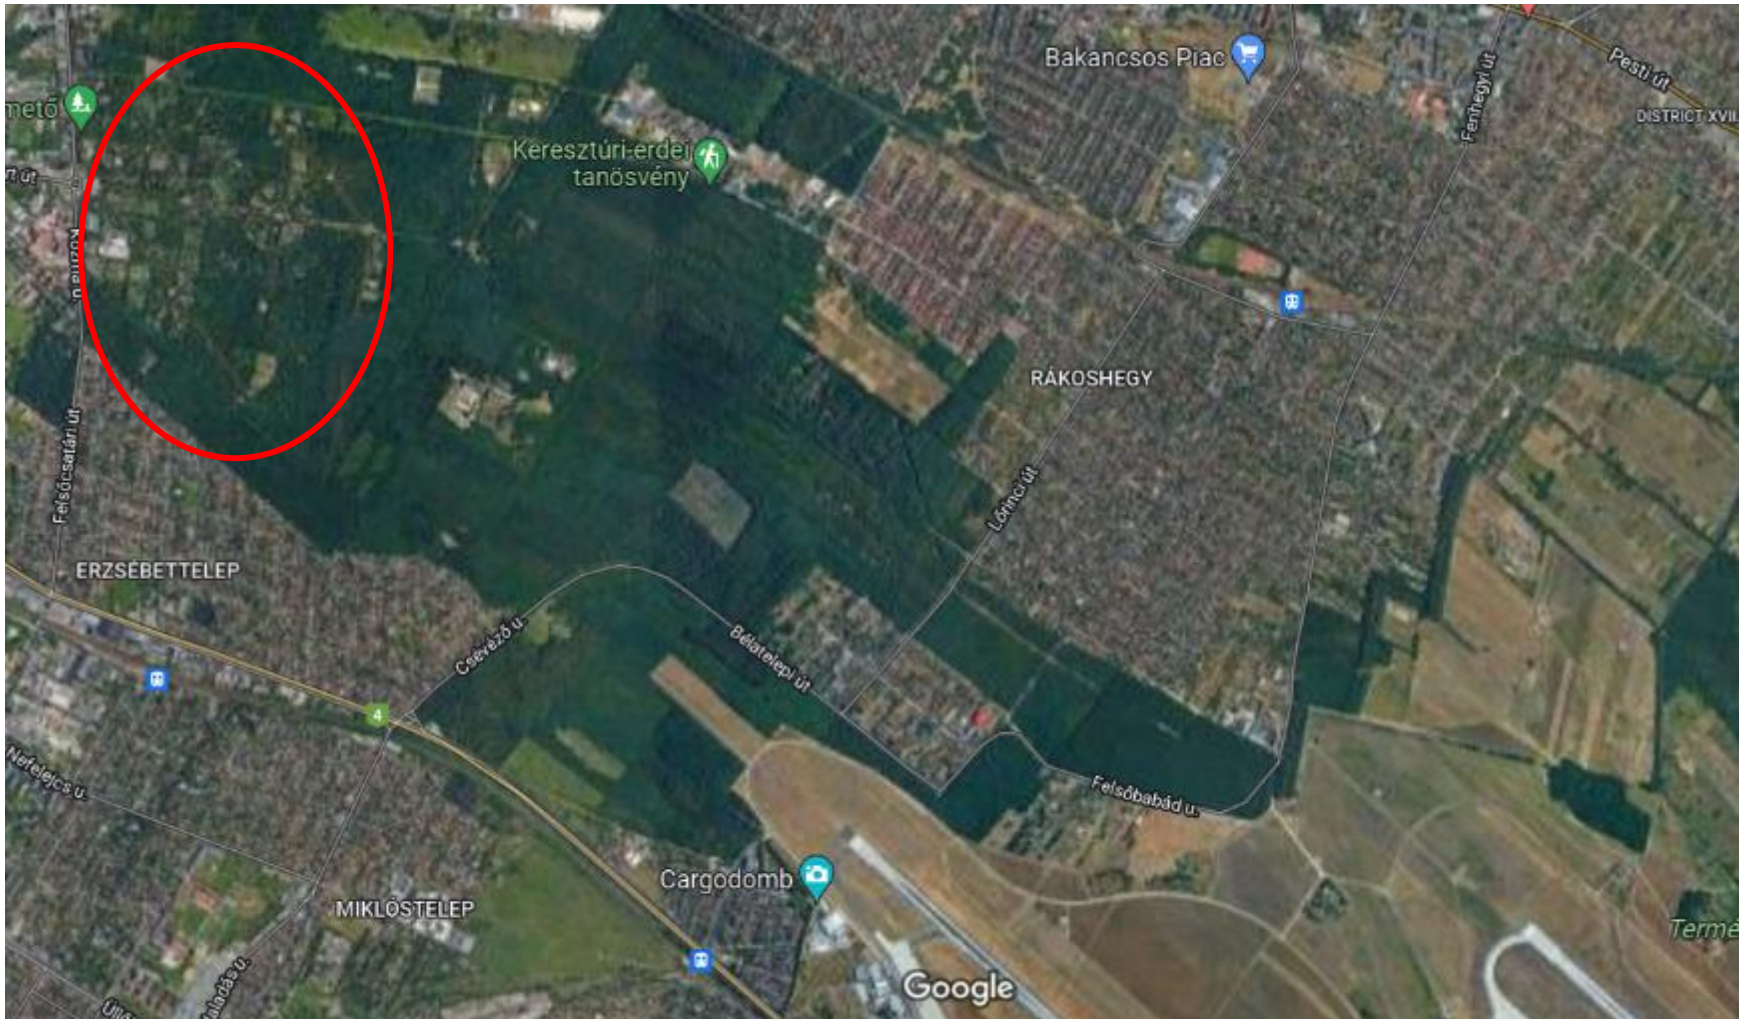

→ 13 km radius

→ 13 km radius

→ 13 km radius

Regulatory background

- ADR.OPS.B.075 Safeguarding of aerodromes

The aerodrome operator shall monitor on the aerodrome and its surroundings:

- (a) obstacle limitation and protection surfaces ...;
- (b) marking and lighting of obstacles ...
- (c) hazards related to human activities and land use in order to take action within its competence, as appropriate.

- AMC1 ADR.OPS.B.075 Safeguarding of aerodromes

(c) ... The aerodrome operator should have procedures to mitigate the risks associated with changes on the aerodrome and its surroundings identified with the monitoring procedures. The scope, limits, tasks, and responsibilities for the mitigation of risks associated to obstacles or hazards outside the perimeter fence of the aerodrome should be defined in coordination with the relevant air traffic services providers, and with the Competent Authority and other relevant authorities.

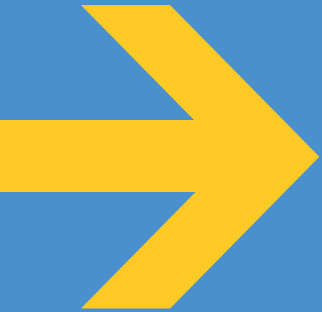

→ New buildings outside ADR boundary

→ Obstacles outside ADR boundary
