

FAQs:

[Scope/Applicability](#), [Air Traffic Management / Air Navigation Services \(ATM/ANS\) ground equipment](#), [Regulations](#)

Question:

The DoV is also documenting the integration of components/devices into the provider's systems within its FS, the new regulatory framework does not cover this integration - the SoC issuing process ends before the device is integrated into the FS, the integration is done as a change to FS. Is this assumption correct?

Answer:

Yes, the integration should be assessed as part of the change to the functional system.
