**List of EASA Supplemental Type Certificates**

**Column Definitions:**
- **STC Holder:** Name of the manufacturer/holder of the STC.
- **Model:** Model number and description.
- **Description:** Details of the modification or change.
- **Certification basis:** Basis for the certification, including applicability and approval requirements.
- **EASA STC no.:** EASA Supplemental Type Certificate number.
- **Date of Issue:** Date when the STC was issued.
- **Status:** Status of the STC (Active, Revoked).

**Links:**
- [EASA STC home page](easa.europa.eu)
- [List of EASA Supplemental Type Certificates](easa.europa.eu)

**Selected Modifications:**
- **Deactivation of Broadband Satcom:** This modification deactivates the broadband satellite communication system.
- **Speed Brake Warning:** The modification adds a speed brake warning system to enhance safety.
- **EFB Installation:** This modification provides provisions for interfacing with Electronic Flight Bags (EFB) on specified aircraft models.

List of EASA Supplemental Type Certificates

**STC Holder**

1. **S-TEC CORPORATION**
   - FAA STC SA09763DS
   - Revision 1
   - Installed of an S-TEC 01320 Digital Flight Control System (DFCS) Rev. 1
   - Certification basis: Master Data List ST-853 MLD-0001, Revision A, dated 21 January 2020
   - Prior to installation of this change/repair it must be determined that the interrelationship between this change/repair and any other previously installed change/repair will introduce no adverse effect upon the airworthiness of the product.
   - Issue date: 25/02/2021
   - Status: Active
   - System Record: 10075713

2. **COLUMBIA AVIONICS INC.**
   - FAA STC SA01958WI
   - SEE FAA APPROVED MODEL LIST
   - Installation of a Collins KuSAT-2000 Tail-Mounted SATCOM System
   - Certification basis: FAA STC SA01958WI
   - This STC is valid for aircraft types and models approved by EASA and listed on the FAA Approved Model List SA01958WI dated 24 January 2020.
   - Issue date: 25/02/2021
   - Status: Active
   - System Record: 10075723

3. **WESTERN JET AVIATION, Inc.**
   - FAA STC ST04860CH
   - SEE FAA APPROVED MODEL LIST
   - Installation of a Collins KuSAT-2000 Tail-Mounted SATCOM system system Rev. 1
   - Certification basis: Western Master Data List 1469990 Revision B dated 13 January 2021
   - This STC requires prior or concurrent embodiment of a TPED STC Service Bulletin. Prior to installation of this change/repair the STC must be determined that the interrelationship between these change/repair and any other previously installed change/repair will introduce no adverse effect upon the product.
   - Issue date: 03/08/2022
   - Status: Active
   - System Record: 10075724

4. **NORTHERN AVIONICS S.R.L.**
   - FAA STC SA00561W
   - WIAS GPS ANTENNA INSTALLATION
   - Certification basis: Western Master Data List 1469990 Revision B dated 13 January 2021
   - This STC requires prior or concurrent embodiment of a TPED STC Service Bulletin. Prior to installation of this change/repair the STC must be determined that the interrelationship between these change/repair and any other previously installed change/repair will introduce no adverse effect upon the product.
   - Issue date: 25/02/2021
   - Status: Active
   - System Record: 10075726

5. **3S CERTIFICATION, LLC**
   - FAA STC SA01856WI
   - SEE FAA APPROVED MODEL LIST
   - Installation of the Send Solutions Airtext Router
   - Certification basis: 1. 3S Certification, Master Data List (MDL) 3817-002-1001, Revision 3.0, dated 13 January 2020
   - This STC is valid for aircraft types and models approved by EASA and listed on the FAA Approved Model List SA01856WI dated 13 January 2020.
   - Prior to installation of this change/repair it must be determined that the interrelationship between this change/repair and any other previously installed change/repair will introduce no adverse effect upon the product.
   - Issue date: 25/02/2021
   - Status: Active
   - System Record: 10075728

6. **SAFRAN CABIN CALLEYS USA, INC.**
   - FAA STC ST01916A
   - A320-233
   - Certification basis: Installation of an A3 Stowage Unit PN: 502331-1
   - Prior to installation of this change/repair it must be determined that the interrelationship between this change/repair and any other previously installed change/repair will introduce no adverse effect upon the airworthiness of the product.
   - Issue date: 02/03/2021
   - Status: Active
   - System Record: 10075729

### Notes
- **STC Holder**: The company or entity that holds the Supplemental Type Certificate.
- **Description**: Details about the modification or change being certified.
- **Certification basis**: References to specific documents and standards that support the certification.
- **Limitations/Conditions**: Details on any limitations or conditions associated with the STC.
- **Date of Issue**: The date when the STC was issued.
- **Status**: Indicates whether the STC is active or not.
- **System Record**: Unique identifier for the STC within a system or database.

### List of EASA Supplemental Type Certificates

#### EASA STC No. 01758
- **STC Holder:** FIEL AVIATION EAST, LTD.
- **Certification basis:** Master Document List
- **Models:** BOMBARDIER DHC-8-315
- **Date of issue:** 04/06/2006
- **Status:** Active

**Description:**

Installation of IARUS Sky Connect Tracker SOP and Satellite Communication System

**Limitations/Conditions:**

- This approved is only applicable to the type/model of aeronautical product specified therein. Prior to incorporating this modification, the installer shall establish that the interrelationship between this change and any other modification(s) incorporated will not adversely affect the airworthiness...

#### EASA STC No. 01790
- **STC Holder:** HONEYWELL INTERNATIONAL INC.
- **Certification basis:** Master Document List
- **Models:** BOEING 747-400
- **Date of issue:** 03/03/2006
- **Status:** Active

**Introduction of Honeywell International Inc. Main/Nose Wheel pn. 2615901-1 and Carbon Brake pn. 2615902-1 in accordance with Honeywell Service Bulletin 2615801-33-001_2615802-33-001 Revision New or later FAA-approved revision as replacement for Goodrich Brake pn.2-1515-1 and/or Wheel pn. ...

#### EASA STC No. 01791
- **STC Holder:** ELLIOTT AVIATION
- **Certification basis:** Master Document List
- **Models:** BEECH 300C
- **Date of issue:** 03/06/2006
- **Status:** Active

**Description:**

Installation of Honeywell Digital Flight Data Recorder System (DFDR)

**Limitations/Conditions:**

- Limited to the aircraft types listed above with Proline 21 Avionics Suite installed.

#### EASA STC No. 01793
- **STC Holder:** ASSOCIATED AIR CENTER
- **Certification basis:** Master Document List
- **Models:** AIRBUS A319-115
- **Date of issue:** 13/06/2006
- **Status:** Active

**Description:**

VIP Cabin modification

**Limitations/Conditions:**

- Master Document List (MDL), ref. 23500000, revision A, dated June 8, 2006 or later EASA approved revision.FAFA Approved Aircraft Flight Manual Supplement (AFM-6), ref. 2350021060, revision R, dated June 9, 2006 or later EASA approved revision.Instructions for Continued Airworthiness (ICAWS), Chapter 3

- This STC is limited to the A319 CJ MSN 2952 Instructions for Continued Airworthiness (ICAWS), Chapter 3 "Airworthiness Limitations" ref. 2350050090, revision A dated June 8, 2006 or later EASA approved revision.

#### EASA STC No. 01795
- **STC Holder:** LAKE CENTRAL AIR SERVICES
- **Certification basis:** TCCA STC
- **Models:** BOEING 737-200, 200C, -300, -400, -500
- **Date of issue:** 18/04/2006
- **Status:** Active

**Description:**

Horizontal Stabilizer Attachment Fitting PN LC-2200-21 TCCA STC SA-05-71 Issued on 8th July 2005

**Limitations/Conditions:**

- Parts must be manufactured in accordance with Lake Central Air Services Drawing LC-2200-21, Rev. 0, dated July 06, 2005, and Lake Central Air Services Manufacturing Procedures MP-LC-2200-21, Rev. B, dated July 06, 2005, or later approved revisions.- Installation must be performed in accordance with...

#### EASA STC No. 01796
- **STC Holder:** NASCO BRAKE, INC.
- **Certification basis:** Master Document List
- **Models:** BOEING 737-700, 800, -900
- **Date of issue:** 31/05/2006
- **Status:** Active

**Description:**

Installation of brake components listed on Nasco Aircraft Brake, Inc drawing 737101, Revision , dated August 11, 2005 for use in Goodrich brake assemblies 2-1474-3, -4, -5 and -7 in accordance with Nasco Configuration Control Drawing NCC007, Revision B, dated November 7, 2005 or later approved revision...

**Notes:**
- FAA STC: FAA Supplemental Type Certificate
- EASA STC no.: EASA Supplemental Type Certificate Number
- Certification basis: Basis for the certification of the STC
- Associated Technical Documentation: Details of the technical documentation associated with the STC
- Limitations/Conditions: Specific limitations or conditions associated with the STC
- Date of Issue: Date the STC was issued
- Status: Current status of the STC
- System Record: Unique identifier for the STC in the EASA database
