Transposing Industry Standards into National Law

Borja GUTIERREZ

Head of Operations in Apron Area Inspections Department
AESA (Spanish Aviation Safety and Security Agency)

Köln, 07-march-2019

Transposing Industry Standards into National Law

1. Why?
2. What?
3. How?
4. Oversight

**National
Law**

services provided
with required level
of safety

EPAS

AER5.9 Include
Ground Operations
in National SSPs

CIAIAC

Recommended to
establish technical
standards for GH

SAFETY ACTIONS

Incorporate SOPs
Conduct Inspection
Safety forum

⇒ The experts are YOU INDUSTRY STANDARDS

⇒ AHM: Industry policies and standards

⇒ IGOM: Generic procedures **IGOM**

⇒ GOSM: ISAGO Standards and Recommended Practices (GOSARPs)

⇒ ISAGO Standards Manual
more similar to a regulation

⇒ Technical Instructions SOPs as AMC and GM

⇒ Operations

⇒ SMS

⇒ Flexibility (AltMOCs)

Oversight

 Headquarters (compliance with Technical Instructions)

 Airports/stations (implementation)

➤ Oversight

➤ Proportionality

➤ Cyclic Inspection programme

➤ Future: Performance Based Oversight

➔ Not paper work

➔ Just improving SAFETY

➔ Thank you for
your attention
