Ground Handling Webinar — EU Ground Handling Regulations Presentation

Ground Handling Webinar — Flowchart Ground Handling

Ground Handling Webinar — Youtube Recording

Description

Get ready on time for the EU Ground Handling safety regulations that will become applicable from 27 March 2028.

Between 2025 and 2028, EASA will organise a series of webinars aimed at helping the European ground handling (GH) industry to prepare for the implementation of the new GH safety rules. The webinars will include participation of competent authorities and industry experts, depending on the topic under discussion.

1st Ground Handling Webinar

What should ground handling service providers do to prepare for the implementation of the new GH Regulations?

- Does Regulation (EU) 2025/20 on ground handling requirements for organisations apply to

me? What is the scope of the Regulation?

- What should I do to prepare? Where do I start?
- What is a declaration? What do I need to declare?
- To whom should I send my declaration and when?

Who should attend?

- Ground handling service providers operating at EASA Aerodromes.
- Aircraft operators performing self-handling.
- Aerodrome operators under the scope of Regulation (EU) 2018/1139 who provide ground handling services.
- Competent Authorities of EASA Member States.

Places are limited to 1,000 — priority will be given to organisations above with "official" organisational email addresses until Friday, 13 June.

Speakers

- EASA: Adina Szönyi, Ground Handling Expert
- EASA: Paul Tibbe, Ground Handling Expert
- Irish Aviation Authority (IAA): Jonathan Heavey
- Dutch Competent Authority (ILT-NL): Tonny van den Berg
- Competent Authority of an EASA Member State: TBD

Dates of the next EASA Ground Handling webinars in 2025

- 23 September 2025, hrs 12:00 – 14:00 CET
- 2 December 2025, hrs 12:00 – 14:00 CET
