

Opening & Welcome

Jesper Rasmussen
Flight Standards Director

Your safety is our mission.

New regulation to be done on CA

- We must: supersede the 552/2004 CA mechanisms, at latest SEP/2023
- We should: facilitate the functioning and development of the future European ATM/ANS market
 - Provide confidence in services and functions that increasingly rely on technology and data sharing
 - Level playing field for an ATM/ANS market in EU
 - Enable digitalisation, automation and industrialisation of ANS products/services
- But how to do it...?

Workshop today

- Before starting rulemaking, we need
 - Your feedback on
 - What works today, what doesn't work, what your expectations are
 - A look into the future – regulation will be in place in 2023+
 - ATM/ANS providers, manufacturing industry, aerodrome operators, competent authorities
- A busy [agenda](#) involving
 - Presentations in the morning and panel discussions after lunch

Thank you
