Acceptable means of compliance and guidance material to the rules of the air

RELATED NPA/CRD 2018-14 (RMT.0703 (INCLUDING ALSO RMT.0704)) — OPINION NO 03/2019

EXECUTIVE SUMMARY

The objective of this Decision is to maintain a high level of safety for services and procedures in air navigation. Following the adoption of Commission Implementing Regulation (EU) 2020/1177 of 7 August 2020 amending Implementing Regulation (EU) 2020/469 as regards postponing dates of application of certain measures in the context of the COVID-19 pandemic and amending among others Commission Implementing Regulation (EU) No 923/2012 (SERA Regulation), this Decision amends the acceptable means of compliance (AMC) and guidance material (GM) to the rules of the air with regard to the ATC phraseologies to be used following the need to implement the ICAO Global Reporting Format as of August 2021.

The AMC and GM have been developed and consulted concurrently with the related implementing rules (IRs) and published for information along with Opinion No 03/2019. Based on this Opinion, the European Commission adopted Commission Implementing Regulation (EU) 2020/469 of 14 February 2020 which as stated above was amended by Regulation (EU) 2020/1177.

1. About this Decision

This rulemaking activity was included in the European Plan for Aviation Safety (EPAS) 2020-2024 under rulemaking tasks (RMTs).0464 and 0703 (incl. RMT.0704). The scope and timescales of these tasks were defined in the related Terms of Reference3.

The final text of this Decision has been developed by EASA in consideration of Regulation (EU) 2020/11774 postponing dates of application of certain measures in the context of the COVID-19 pandemic and amending among others Commission Implementing Regulation (EU) No 923/20125 (SERA Regulation), especially with regard to the ATC phraseologies to be used following the need to implement the ICAO Global Reporting Format as of August 2021.

The major milestones of these rulemaking activities are presented on the title page.

---

2 EASA is bound to follow a structured rulemaking process as required by Article 115(1) of Regulation (EU) 2018/1139. Such a process has been adopted by the EASA Management Board (MB) and is referred to as the ‘Rulemaking Procedure’. See MB Decision No 18-2015 of 15 December 2015 replacing Decision 01/2012 concerning the procedure to be applied by EASA for the issuing of opinions, certification specifications and guidance material (http://www.easa.europa.eu/the-agency/management-board/decisions/easa-mb-decision-18-2015-rulemaking-procedure).

2. In summary — why and what

2.1. Why we need to amend the AMC & GM

This Decision amends ED Decision 2013/013/R in order to ensure consistency with the evolution of the regulatory framework following the publication of Regulation (EU) 2020/4696 as amended by Regulation (EU) 2020/1177.

The AMC will greatly facilitate the preparation of the relevant service providers for the implementation of the amended IRs by offering clear directions and possible means of compliance.

The change introduced through this Decision is explained in detail in Section 2.3 below.

2.2. What we want to achieve — objectives

The overall objectives of the EASA system are defined in Article 1 of the Basic Regulation. This Decision will contribute to the achievement of the overall objectives by addressing the issues outlined in Section 2.1.

The specific objective of this Decision is to postpone the applicability date of an existing AMC to the rules of the air reflecting the amendments introduced by Regulation (EU) 2020/1177.

2.3. How we want to achieve it — overview of the amendments

The applicability date of AMC1 SERA.14001 is postponed as a result of the postponed applicability date of the Global Reporting Format (as of 12 August 2021) and concerns the ATC phraseologies.
