Subject: Fifth EASA Rotorcraft Symposium – Call for papers

Dear Sir / Madam,

The 5th EASA Rotorcraft Symposium will be held on 7th & 8th December 2011 in Cologne.

Over the last 4 years the symposium has grown in popularity and attendance and is rapidly becoming one of the main events in the rotorcraft world calendar. Every year, the symposium brings together manufacturers, operators, owners, maintenance organisations and aviation authorities. This is the rotorcraft "must attend" event of the year, you should make the opportunity to attend.

As in previous years the success of the event is dependant upon those that present the papers that are of interest to us all. Again EASA invites anyone interested in presenting a paper to put forward a topic. Please send your proposal to the Agency. Topics are particularly welcomed in the areas of safety, certification, operations, rulemaking, design, international cooperation and human factors.

Proposals should consist of a title plus a brief abstract of approximately, but no more than, 300 words. These must be submitted by 1 September 2011. Submissions after this date will not be accepted except under extreme circumstances. Following an internal review of the proposals, the Agency will notify selected speakers.

Detailed information on date, venue and programme of the Symposium will be made available on the Agency's website under "Events".

Please forward your abstract and any further questions to Mark Winstanley: email: mark.winstanley@easa.europa.eu, phone: +49 221 89990 4087.

Yours faithfully,

A handwritten signature in blue ink, appearing to be 'P. Goudou', is written over a stylized blue triangle.

P. GOUDOU
