

Wrap-up and Closure remarks

- presented by R, Simon, EASA Design Organisation Manager -

- Many thanks and appreciations were presented to all participants and contributors, also for the fruitful discussions and dialogue. Hopefully all participants expectations were fulfilled;
- Special thanks to the DOA think tank. Your experience is welcomed because it comes from current good practices. In the end it would be rather easy to transfer them into AMC/GM;
- Summary of actions:
 - Certification cabin safety section manager offered to launch a working group on classification of cabin changes with participation of representatives from the industry. Please contribute.
 - There is a need to find a practical way to deal with the reduction of maximum deadline for the implementation of corrective actions related to level 2 findings from 6 months to 3 months. If the industry finds that the new limit is not adequate, lobbying actions are welcomed.
 - Industry is invited to reply to the stakeholders' feedback questionnaires each time they receive it. A high response rate will be highly appreciated.
 - Industry will be invited to contribute in the consultation phase of the LOI introduction. Please, contribute.
 - The Certification Memo (CM) on changes to jet fuel specifications is currently in consultation phase. Please, provide your comments.
 - The CM on NVIS and PCDS is still under development. As soon it is available for comments you are invited to contribute.
 - The IORS team will welcome any comment sent to them.
- November 2012 DOA workshop presentations will be available on EASA website and EASA Q drive (Q:\DO-Workshops\DOA-workshops\2012-11) immediately;
- Further questions are still welcomed;
- Q&A will be also available on EASA website and EASA Q drive (as soon as possible);
- On-line feedback would be very much appreciated;

- Schedule of events for 2013:
 - 13-14.02.2013: workshop for DOA TL's. Presentation of new procedures to DOA TL's;
 - 20-21.11.2013: workshop for Industry. Special celebration as the first publication of JAR 21 was on 1st November 1993. Special event to commemorate 20 years of DOA. Information about this workshop will be published in due time.
