MB for
endorsement

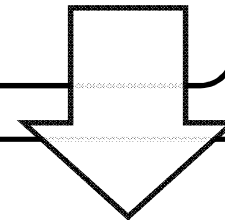

What is the SRP going to do?

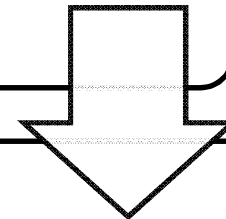

Assess safety risk

- Challenge: find a consistent method

Propose mitigation action

- Challenge: gain commitment to implementation by relevant stakeholders

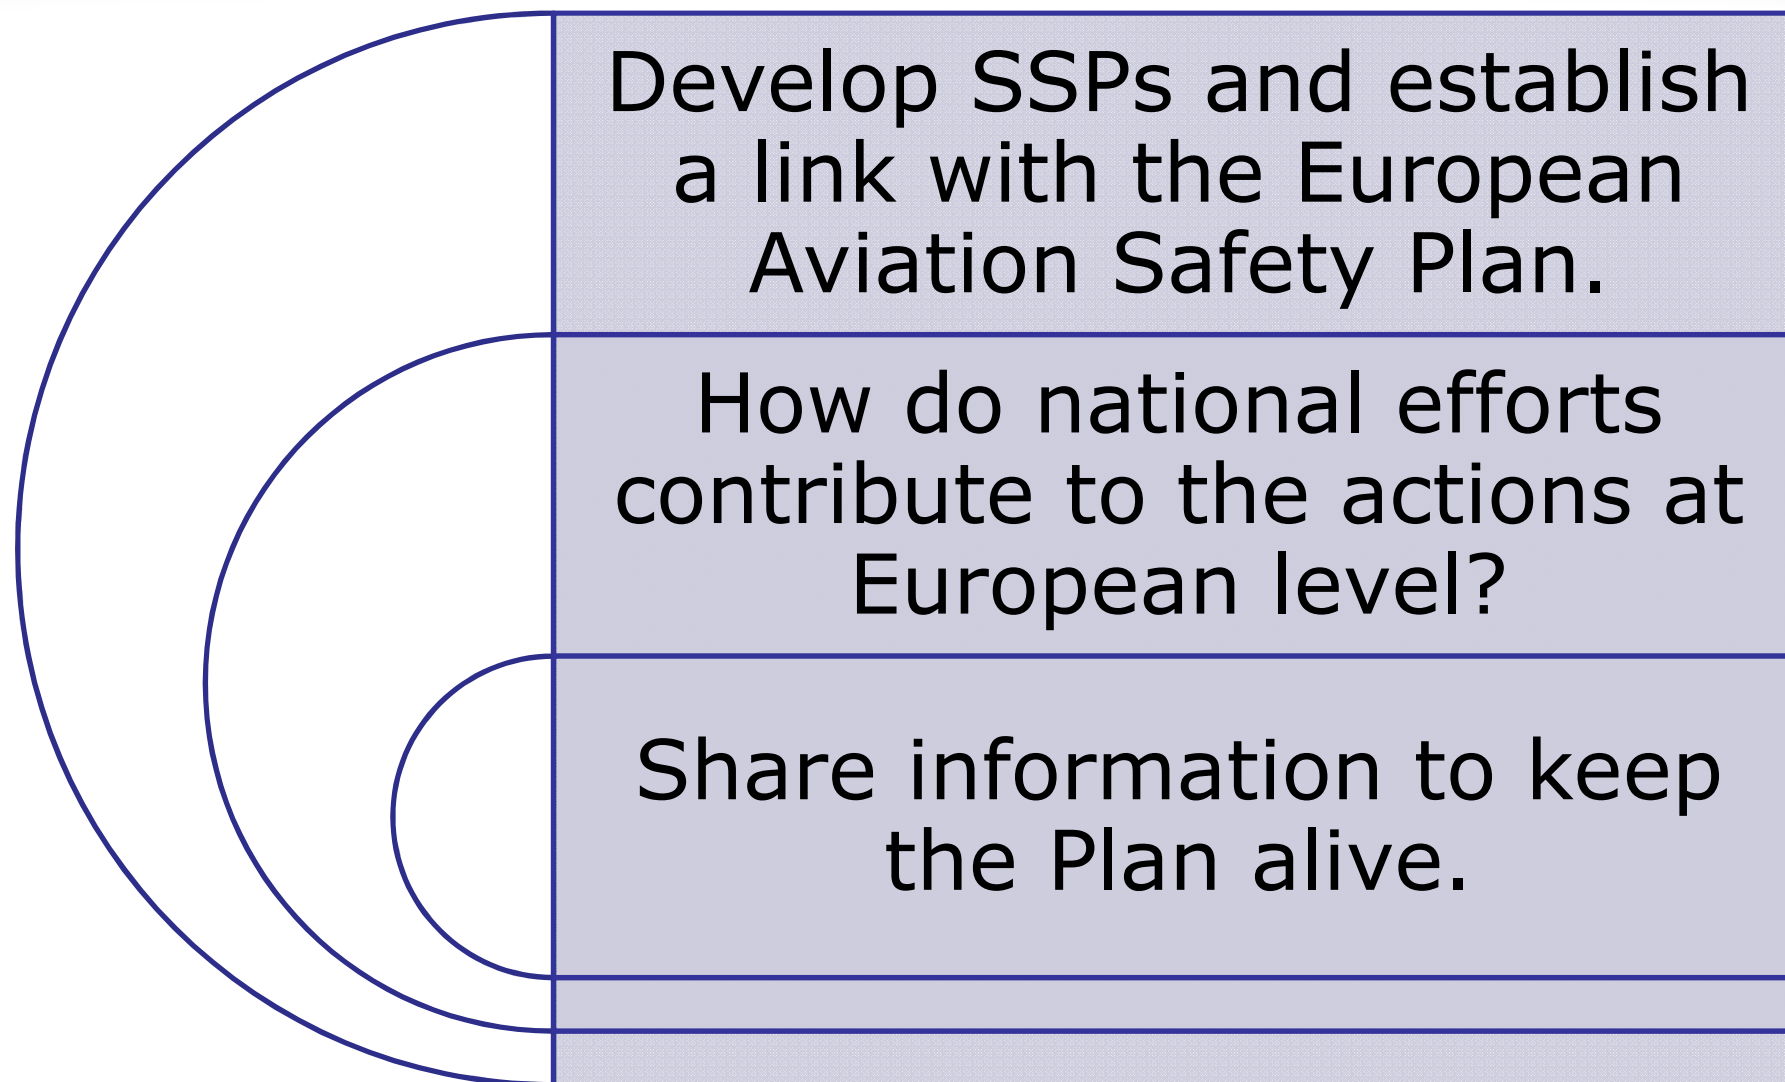

Document the process

- Create a Safety Risk Register

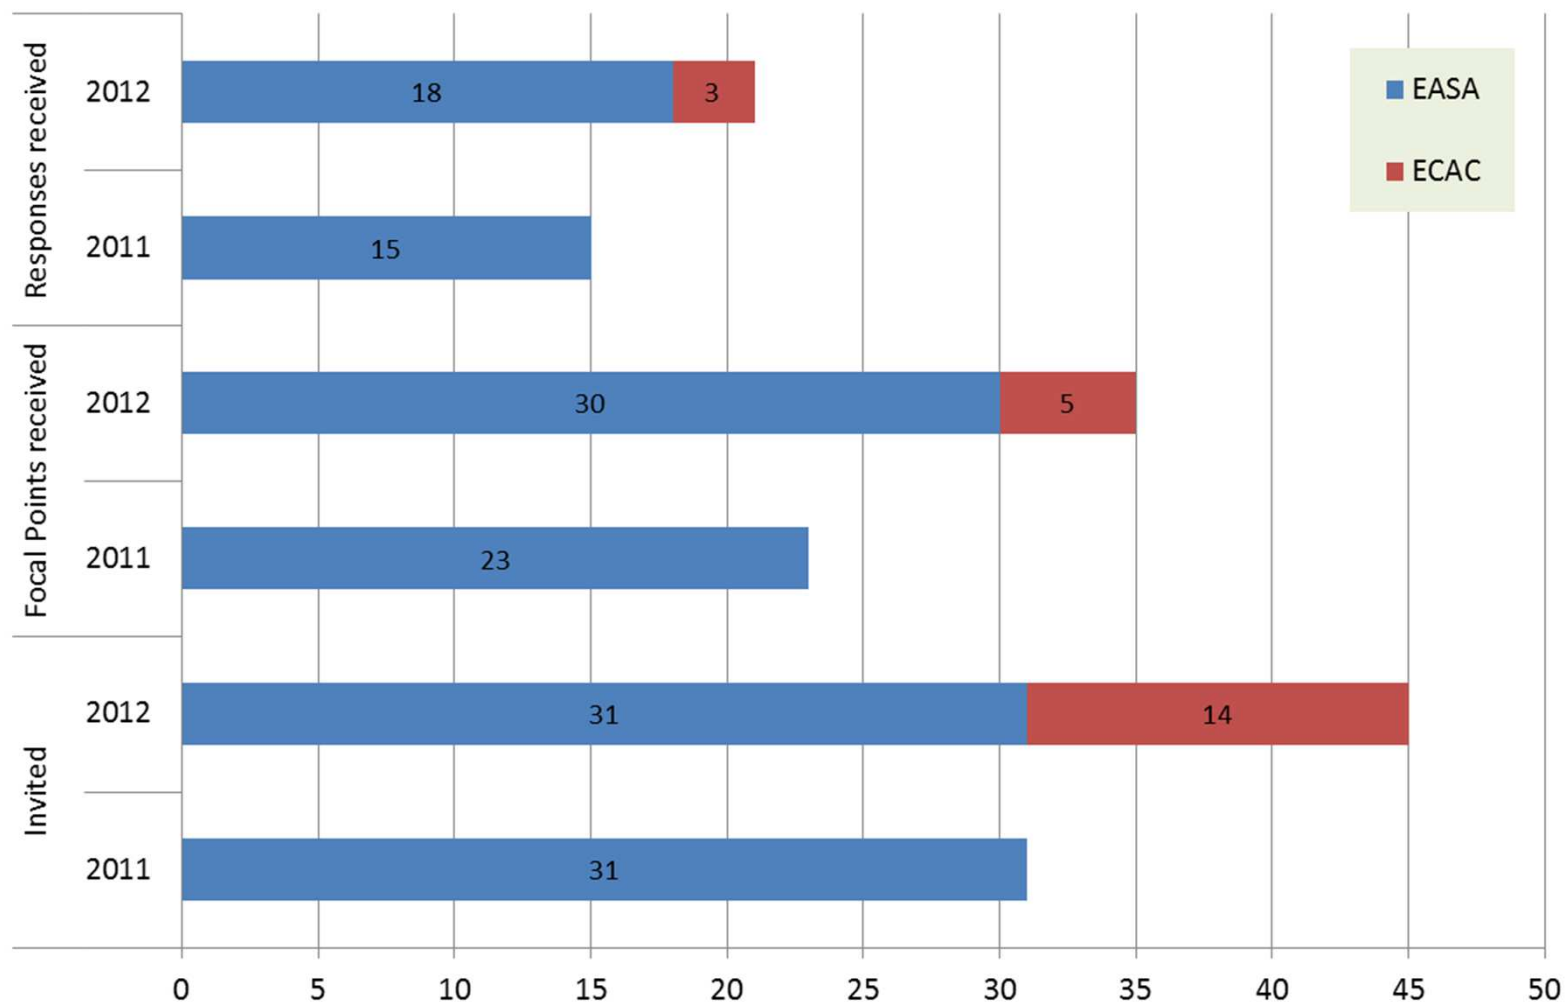

Role of the Member States

Voluntary implementation

Safety Management

On this page we provide an overview of the various activities that are being carried out towards the regulation and implementation of safety management at various levels in the EU aviation system. Information on this website is organised in three dimensions to facilitate access and comprehension. The site describes safety management activities at the [Member State](#) level, at the European Union (EU) level and at the global level.
