

11 November 2021

FLIGHT PROCEDURES DESIGN SERVICES PROVIDERS OVERSIGHT Training

The objective of the training was to increase the capability for transposition and implementation of Regulation (EU) No 2017/373 and Regulation (EU) 2020/469 of project beneficiary experts.

The training was organised in 4 stages:

- International (ICAO) standards and recommendations,
- overview of EU requirements, AMC and GM with focus in differences between ICAO and EU requirements and recommendations,
- practical case studies
- exercises

Practical examples of airspace management (Rome TMA change) and flight procedure implementation (LIPB IAP) have been presented by ENAC Italy experts. Participants evaluated practical cases of airspace management (institution of parachuting area in complex airspace) and flight procedure implementation (Samedan-Lugano LLR).

Participants used the opportunity to discuss:

- Aeronautical Data Quality, in particular Data Catalogue and Data transmission with Montenegro
- Applicability of ATSEP requirements for FPDP certification with all CAAs
- Concept of functional system applicable to a FPDP, especially with Serbia and Montenegro

The activity was implemented from 09 - 11 November 2021 in Podgorica, Montenegro.

In total 14 participants from 6 beneficiary countries attended the activity.
