

7 February 2022

ATS Oversight On the site support

This activity provided 5-day on-site support to North Macedonia Civil Aviation Authority (NM CAA) to prepare and perform an audit to the ANSP of the country, M-NAV (Air Navigation Service Provider of the Republic of North Macedonia) in ANS domain, as well as to help with the transition to implement Regulation (EU) 2017/373 for the benefit of the targeted inspectors.

CAA inspectors have gained a more comprehensive view as well as a practical experience about Regulation (EU) 2017/373 implementation challenges and ways to tackle those.

The activity was implemented from 31 January until 4 February 2022, in Skopje, Republic of North Macedonia. In total 9 participants from CAA and M-NAV attended the activity.
