Change Revision Summary

Paragraph no.	Description of change

1. General

The present guidance material is related to the exemption to be granted according to ICAO Annex 18 and Technical Instructions for the Safe Transport of dangerous goods by air (Doc 9284) Part 1,1.1.3.

The aim is to provide applicants with practical information about

- the common process shared by the EASA Member States identified hereafter, and
- national administrative practices.

2. States that set in force the common process

BELGIUM
CROATIA
ESTONIA
FRANCE
GERMANY
LITHUANIA
LUXEMBOURG
NORWAY
SWEDEN
SWITZERLAND

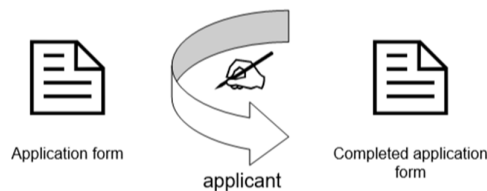

3. General process

As States of origin, transit, overflight and/or destination, the above mentioned EASA Member States use the same application form published in their website.

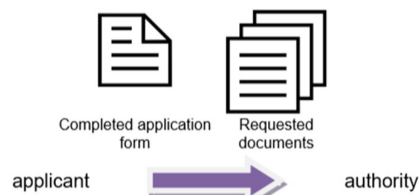

Application form

This application form must be completed by the applicant (air operator or its representative) and sent to the authority of the concerned States.

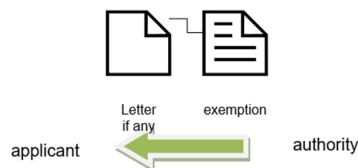

In addition to the completed application form, the applicant must provide the competent authorities with a package of documents listed in Appendix II of the form.

After reception of the completed application form plus the set of requested documents, and subject to positive check and analysis, the authority references, dates and signs the application form, the form becoming the exemption itself.

The authority provides the applicant with the exemption.

4. National administrative practices

The safety conditions attached to exemption (see application form and its Appendix I) are harmonized. However, some administrative practices may be different from one authority to another. These national administrative practices are addressed below.
