

20 May 2022

## *Aerodrome Shadow Inspection*

This activity aimed to increase participants' knowledge and to improve practical implementation capabilities of the Commission Regulation (EU) No 139/2014 in the field of Aerodromes oversight.

For this activity the expert shared AESA's experience in the development of its aerodrome oversight programme and implementation best practices, providing practical examples, and exchanging experiences and lessons learnt. The activity took place at Valencia Airport facilities. Three days were carried out in a meeting room and two days were dedicated to performing the aerodrome inspection.

Experts from Spanish AESA provided an overview of provisions related to apron management from both NAA and aerodrome operator perspective, highlighting implementation considerations, real case scenarios and sharing experiences and best practices regarding apron management and oversight activities.

The activity was implemented in period 09 – 13 May 2022 in Valencia, Spain.  
In total 6 participants from 3 project beneficiary countries attended the training.

*The "EASA-IPA5" project is funded by  
the European Union and implemented  
by EASA*
