***Rescue and fire-fighting services certification and oversight; training program
for aerodrome personnel***

This experience exchange visit aimed to increase participants' knowledge and to improve practical implementation capabilities of the Commission Regulation (EU) No 139/2014 in Rescue and Firefighting Services (RFFS) certification and oversight and on acceptance and oversight of the training concepts defined in aerodrome manuals.

AESA expert shared their experience in the field of Rescue and Firefighting Services (RFFS) and training concepts acquired from its large number of aerodromes certified under the European Regulation (EU) 139/2014.

The activity was implemented in period 24 – 27 May 2022 in at Vigo airport facilities and at the SEGANOSA training centre located in Aixen.

In total 4 participants from 3 beneficiary countries participated in the activity.
