

24 October 2022

Auditing Techniques Training

The objective of this training was to increase competence and improve efficiency of the beneficiary inspectors involved in certification and oversight tasks. This activity has made possible to share experiences regarding the planning, definition of audit typologies, training systems and composition of audit teams under the scope of European regulation.

The four-day activity took place in Podgorica, from Monday 17th until Thursday 20th October 2022. The audience consisted in 29 participants from the IPA beneficiary countries with experience in different aviation domains such as airworthiness, air operations, ANS, aerodromes, security, and passenger rights.

In total 29 participants from 7 beneficiary countries participated in the activity.
