

Joonas Laukia

Joonas Laukia works at EASA as a Sustainable Aviation Officer. His main responsibilities cover carbon pricing mechanisms aimed to reduce aviation sector's environmental footprint. In this capacity, he contributes to the work on monitoring, reporting and verification of CO₂ emissions within EU ETS and ICAO CORSIA mechanisms and follows the work of including the MRV of non-CO₂ impacts within the EU ETS MRV framework. Before joining EASA, Joonas worked as an Environmental Officer at the ICAO Secretariat and as a Special Advisor on Environment at the Finnish Civil Aviation Authority.
