

EASA Certification Information

No.: 2024-23
Issued: 12 December 2024

Subject: Revocation of Revision 3 of STC 10061715

Certificate No: 10061714

Issued by: European Union Aviation Safety Agency

Holder of the Certificate: Textron Aviation Inc.

Context: Textron applied for a major change and in the description clearly stated that it was an update to the EASA STC 10061714 (see below), furthermore the FAA considered this validation in their forwarding letter ref 731-24-00781 as a basic streamlined process in accordance with the TIP.

Application Data	
Applicant	TEXTRON AVIATION Inc.
EASA Account Number	308138
Application Type	Major Change
Classified As	Basic - Streamlined
Proposed End Date	31 Oct 2024
Product Details	
Type Certificate Holder	TEXTRON AVIATION INC.
Type Certificate Number	EASA.JM.A.052
Type	Cessna 182 Series (Skylane)
Model	182T
Model	T182T
Fees & Charges Category	HTOL > 1 200 kg ≤ 2 730 kg
Estimated Fee	352.81 EUR
Application Details	
Title	Models 182T & T182T NXi STC Indraw
Description (incl. Reinvestigations)	This project will incorporate the Garmin Integrated Avionics System updates: STC SA01830W1 (EASA STC 10061714). Refer To Certification Plan CP-TXTAV-014964-001.
Demonstration of Eligibility	
Validation of foreign approval	
Remarks	
CP-TXTAV-014964-001 Attached	

Background: After receiving the certificate Textron clarified that this was not their intent. What they wanted was not a revision of the STC, but the incorporation of the STC into the aircraft build standard. Therefore this is a Standard Major Change, not a Major Change to the STC. Therefore the issued revision 3 of the STC needs to be revoked.
