

## EASA Certification Information

**No.:** 2025-04  
**Issued:** 10 March 2025

**Subject:** Notice of intention to suspend EASA Type Certificate No. EASA.A.563 Skycar aircraft model

**Type Certificate No.:** EASA.A.563

**Affected product(s):** Skycar model

**Type Certificate Holder:** OMA SUD S.P.A. Sky Technologies

**Background:** The OMA SUD Skycar model was approved on 08th January 2010 by EASA, with TC No. EASA.A.563

OMA SUD S.P.A. Sky Technologies has informed EASA that the Skycar aircraft model is no more produced and there is no such aircraft model in operation.

No Certificate of Airworthiness (CofA) is either active or needs to be revoked and no new CofA shall be issued. Consequently, the TC holder's intention is to suspend their TC.

EASA hereby asks you to communicate the aforementioned intention of surrender to any natural or legal person to whom it could be of direct and individual concern, as well as to other possible interested persons.

When doing so, EASA also asks you to inform them about the possibility, no later than 5<sup>th</sup> June 2025, of commenting on the above.

The Agency will assess the suspension, taking into account the comments received, and may accept the suspension in accordance with the applicable administrative procedures, removing the reference to the afore mentioned model from the EASA Product List.

Note: EASA encourages the continuation of aircraft Type Certificates. It should be noted that the transfer of a TC holdership is possible, as long as it is active or suspended. Parties interested in a TC transfer should directly contact the current TC holder.

The transfer of TC EASA.A.563 is closely related to the availability of a suitably qualified Design Organisation. This could be by a DOA or ADOA, be it from own resources or through a contracted organisation.

A surrendered TC cannot be transferred anymore. The difference between the key words 'suspension' and 'surrender' is explained on the related EASA webpage:

<https://www.easa.europa.eu/en/document-library/certification-procedures/transfer-surrender-limitation-suspension-and-revocation>
