

EASA Certification Information

No.: 2025-10
Issued: 06 August 2025

Subject: Acceptance of the request of 2Excel Design Limited to surrender its UKTSOA and related EASA ETSOA EASA.21O.10048348 for the F20/23XLM Ni-Cd Battery

ETSOA No.	Description	P/N	Date of last issue
EASA.21O.10048348	F20/23XLM Extra Low Maintenance Ni-Cd Battery	4575126-()	05.03.2014

Holder of the Certificate: 2Excel Design Limited
72 Fielding Road
W4 1DB London
United Kingdom

Context:

The ETSO Authorisation in object was originally issued by EASA, dated 05 March 2014, but was subsequently converted in EASA's system to a validated authorisation at the point of the United Kingdom's exit from European Union and the United Kingdom Civil Aviation Authority (hereafter referred as UK CAA) taking over full authority of civil aviation in UK.

On the 4th of August 2025, UK CAA informed EASA about acceptance of the request of 2Excel Design Limited to surrender the UKTSO authorisation for the F20/23XLM Extra Low Maintenance Ni-Cd Battery, PN 4575126-(), approved to the ETSO-C173 standard, originally by EASA, through the authorisation EASA.21O.10048348.

With the UK CAA acceptance, which represents the concurrence from the State of Design authority for the article, EASA also states its acceptance to the applicant's request to surrender this approval and withdraw its validated authorisation number EASA.21O.10048348.

Upon 6th of August 2025, the ETSO Authorisation listed above has become ineffective pursuant to Article 21.A.619(a)(5) of the Annex (Part 21) to Commission Regulation (EU) No 748/2012 and EASA administrative procedures.

With this surrender acceptance, the equipment can only be changed through a change to the product in which the article is installed, not to the article taken in isolation, from:

1. the Agency; or
2. an approved design organisation within the scope of its privileges, as recorded in the terms of approval.
