

# ICAO ESAF/ WACAF Annual Environmental Workshop and EASA 3rd Annual SAF Workshop Under the ICAO - EU ACT-SAF Assistance Project

20-23 April 2026 Kigali Rwanda

ICAO

## Session 8

# ***SAF Midstream: Conversion and refining from Process to Products***

## Session 9

# ***SAF Downstream: Certification, Deployment, and Market uptake from Refinery to Runway***

## Session 9

# ***SAF Downstream: Deployment, and Market uptake from Refinery to Runway***

# Session 10

## Airports as the critical last-mile in the SAF value chain

## Session 10

***Airports as the  
critical last-mile in  
the SAF value chain***

***Panel: Fostering SAF  
demand in Africa***

## Chinga Mazhetese

Regional Officer: Environment/ Aeronautical  
Meteorology

International Civil Aviation Organisation  
(ICAO)- ESAB Regional Office

[cmazhetese@icao.int](mailto:cmazhetese@icao.int)

Chinga Mazhetese is a Regional Officer for Environment and Aeronautical Meteorology at the ICAO Eastern and Southern African (ESAF) Regional Office, based in Nairobi, Kenya. Prior to this she was an Environmental Protection Specialist at the South African Civil Aviation Authority.

She joined ICAO in 2019 and in this role, she supports 24 Member States in implementing ICAO Standards and Recommended Practices related to environmental protection and meteorology.

She has over a decade of experience in climate-related programme and project management across the aviation and energy sectors.

**Frankline Omondi**

Aviation Expert

African Civil Aviation Commission (AFCAC)

FOmondi@afcac.org

Frankline Omondi is an Aviation and Environment Specialist with a focus on Climate Change Policy, Air Transport Liberalization, Sustainability and Efficiency at the African Civil Aviation Commission (AFCAC). Frankline coordinates environmental protection matters in corporation with African States, other organizations and bodies involved in the promotion and development of civil aviation in Africa.

Currently, Frankline is coordinating the AFCAC's initiative to accelerate the development and deployment of Sustainable Aviation Fuels in Africa. Frankline is also the AFCAC's Observer at ICAO CAEP where he coordinates environmental protection activities on behalf of the African aviation industry together with the CAEP member States from the African continent.

**Daniel Moss**

Manager Government, Legal & Industry  
Affairs

African Airlines Association (AFRAA)

[dmoss@afraa.org](mailto:dmoss@afraa.org)

Daniel is an air and space lawyer with an Advanced LL.M. in Air & Space Law from Leiden University. He brings nearly 15 years' experience spanning aerodrome and airline operations, government and industry affairs, and strategic policy and legal advisory at both executive and board levels.

As Sustainability Lead at AFRAA, he advances member airline interests across regulatory and policy fora. He actively engages national regulators, regional authorities, and international organisations—including AUC, AFCAC, ACI Africa, IATA and ICAO towards realization of a sustainable, interconnected, and affordable Air Transport industry in Africa where our Airlines drive economic development

## Beloved Mupfururirwa

Technical Coordinator

Southern African Development Community  
(SADC) Aviation Safety Organisation (SASO)

[mupfururirwab@saso.int](mailto:mupfururirwab@saso.int)

Beloved has more than 30 years of experience in aviation management and regulatory oversight. At SASO, he drives regional safety harmonization initiatives and in partnership with ICAO ESAF, spearheads programs with SADC Member States to reduce CO<sub>2</sub> emissions in aviation.

His background also includes previously serving as a State Focal Person for SAP and CORSIA.

**El-Hadj Aly Ouattara**

**AERIA**

**ABIDJAN INTERNATIONAL AIRPORT FÉLIX  
HOUPHOUËT-BOIGNY**
